ABOUT US

Leading manufacturer of transport textile products, including side curtains, tarpaulins, roll over covers, and thermal barriers.

Straitline® Canvas is a Palmerston North-based family business. Started in August 1975 by father and son duo Colin and Mike Currie, Straitline® began as a general canvas manufacturer, selling to transport companies and farmers in the Manawatu. In the 1990s, Straitline® focused increasingly on the commercial and house markets, selling side curtains, tarpaulins, shade sails, patio blinds and more. Mike's sons Ken and Patrick joined the business in the early 2000s, starting a shift towards Transport products and a New Zealand-wide focus.

Now, Straitline® is the lower North Island's leading manufacturer of transport textile products,

including side curtains, tarpaulins, roll over covers, and thermal barriers. We have a wide range of parts and accessories, available for same day dispatch from our base in Palmerston North. We're also the leading manufacturer in the Manawatu–Wanganui region for patio blinds and shade sails. Our focus is on finding ways to make your life easier. We'd love to hear feedback or new product ideas—just contact one of our friendly team.

More than forty years later, Straitline® is still a family-owned business and still manufactures industrial textile products right here in New Zealand.

OUR VISION

To become a systems-driven business, that has a strong market-leading foundation in our core markets, by 2027.

OUR MISSION

We make transport operators' lives easier.

OUR VALUES

Stand by our word.
People deal with people.
Challenge the status quo.
Obsess over quality.
Get stuff done.

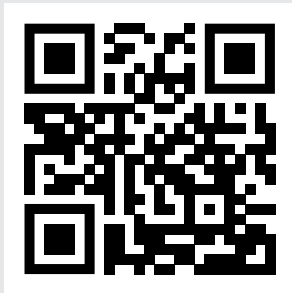

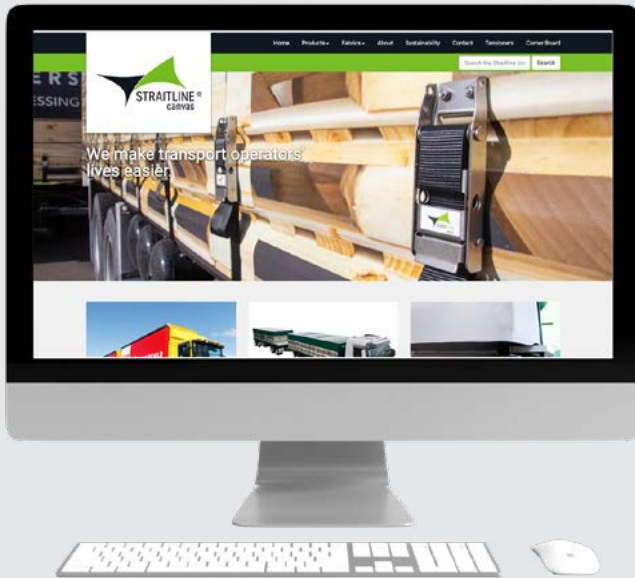

Straitline® Canvas

Reception

HOW TO BUY ONLINE

Things to remember:

- All orders placed by 3pm will be dispatched the same day.
- Delivery to urban areas is overnight via New Zealand Couriers.
- Allow an extra 2–3 days for delivery to rural addresses.
- All prices exclude GST. Freight is added at checkout.
- Payment is via Paypal or bank deposit (for bank deposit, select 'pay later' at checkout).
- Account customers: select 'pay later' at checkout and the order will be charged to your account.

1

Scan QR Code or visit
www.straitline.co.nz/parts
and select the part you would
like to purchase.

2

Click 'Add to cart'. The shopping
cart will pop up, where you can
adjust the quantity.

3

To add other parts, exit the pop-
up, navigate to the other parts you
need and repeat step 2.

4

When you're finished, click
'View my cart' on any part page
and follow the steps for checkout.

MANUFACTURING

Truck Side Curtains

TRUCK SIDE CURTAINS

Discover a range of fabric options tailored to suit every need, from durability to eco-conscious choices.

STANDARD

Standard Spec

Cost-effective and used on NZ side curtains for decades. Wide range of fleet colours.

TOUGH

Tough Spec

Higher tear strength: 20% harder to rip pole-to-pole. 30% higher adhesion means reduced delamination.

Eco Spec

At least 35% recycled content. At least 14% reduction in fabric production CO₂ emissions.

Truck Side Curtains

Truck Side Curtains

Each pair of Straitline® Side Curtains are custom made to fit your unit, by a team who are obsessed with quality. Transport operators come to Straitline® when they are seeking a comprehensive solution to side curtains and are sick of excessively long lead times for manufacture. Our goal is to make our customers' lives easy and this is reflected in our service. From taking the measurements of your unit's body through to curtain installation, you can expect clear communication, reliable promised dates and full backing by Straitline® about the quality of our product.

**Strongest Fabric
on the Market**

Short Lead Times

Easy-to-Use

30 Years Experience

COMPLETE IN-HOUSE EXPERTISE

Manufacturing

Our entire team are obsessed with quality – we must be to produce true certified load restraint side curtains. We source and import nothing but the best raw materials, hold excessively large stocks to ensure a smooth buying process for our customers, keep a dynamic production schedule for emergency jobs and have imported the best welders from Europe to ensure quality curtain construction.

After listening to the transport market, we discovered how much of an issue colour matching your logos are! We provide a miniature printed sample for every new print design we do, ensuring that we have interpreted your colour right. Our obsession really shines through in our printing capabilities. Our team has mastered the printing process, from our world class printer to our custom ink designed and manufactured in USA, just for us to battle the extreme New Zealand UV conditions.

Digital Printing

Clear Coating

We offer a high gloss, easy to clean finish for every set of curtains, a must have for anyone who wants the best-looking truck possible. Also, everyone has seen clear coat falling off curtains, not pretty! To combat this we have designed and built our own clear coat application robot, the only one of its kind in the southern hemisphere. You can expect every batch of clear coat to have been applied correctly and consistently thanks to this technological leap!

A large majority of our customers support us because they are investing in innovation for the NZ transport market. From developing the bulletproof Straitline® curtain tensioner, through to our pallet corner boards, we are constantly working on projects to make transport operators lives easier. Got a problem with trucking? Let us know, we may just be able to come up with a solution for you!!

Parts

Thermal Barriers

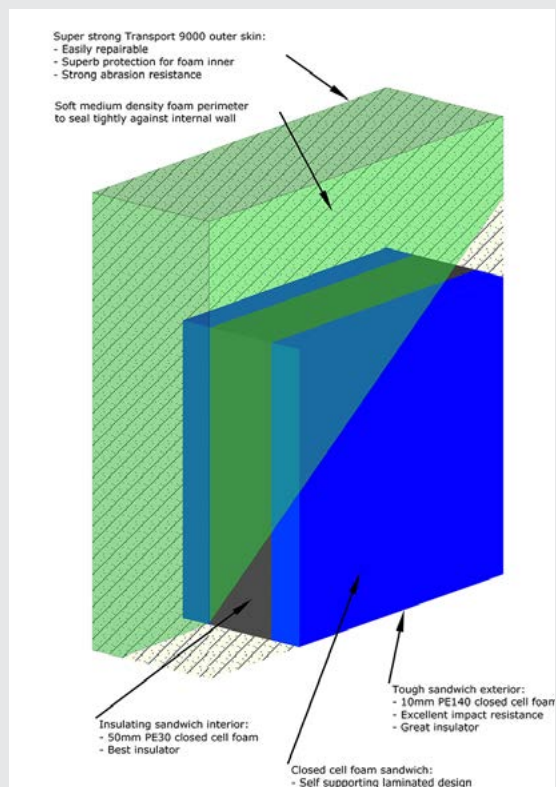

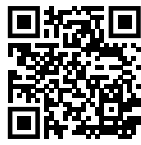

Straitline® Thermal Barriers

- ✓ Made in New Zealand
- ✓ Designed to Last
- ✓ Custom fit for your Unit
- ✓ Separate different Temperature Zones in your Trailer

Innovative Straitline® Thermal Barriers (also known as chiller blinds or chiller bungs) are designed to create the perfect division between frozen and chilled products.

We combine 70mm of closed cell foam insulation with a full outer skin, protecting the foam from damage. The foam core provides flexibility and strength, while offering superior insulating properties.

[Learn more >](#)

Thermal Tanker Covers

Thermal Tanker Covers

- ✓ Digital Printed Signage
- ✓ Protective Clear Coat
- ✓ Cost Effective
- ✓ Tough ThermaPVC 9500 Insulated Fabric

Straitline® Innovative Thermal Tanker Covers are the perfect fit for keeping your cargo hot or cold. Our ThermaPVC 9500 fabric is made with a 3mm insulating layer, avoiding the need for multiple layers. No more issues with stickers peeling off! We digitally print your signage directly onto the fabric. A protective clear coat lengthens the life of your covers, and makes them easier to clean.

Tough, cost-effective, and custom made to fit your barrel.

Roll Over Covers

Elliptical Roll Overs

- ✓ Ripstop or side curtain-weight fabric options
- ✓ Replacement parts available (see page 49)

Tough Elliptical Tarpaulins, custom made to fit your truck or trailer. We use Transport 9000 PVC, side curtain-weight European PVC with a wide range of colours. Made in New Zealand. We have a full range of Elliptical parts to support this product.

[Learn more >](#)

Roll Over Covers

- ✓ Ripstop PVC
- ✓ Replacement parts available (see page 46–47)

We manufacture truck roll over tarpaulins for all types of trucks, including bulk bins and agricultural contractors. Made from tough Ripstop 7000 PVC and designed to withstand everyday use. We have a full range of Roll Over Cover parts to support this product.

[Learn more >](#)

Tarpaulins / Stockcrate Covers

Transport Tarpaulins

- ✓ Ripstop PVC
- ✓ Custom lug configurations available

Tough ripstop PVC or ripstop canvas truck and trailer tarpaulins, designed to fit your deck size and load combinations. Shortening lugs can be added at various intervals to cover different load heights.

[Learn more >](#)

Stockcrate Covers

- ✓ Bolt-on ring assemblies for easy replacement
- ✓ Tough European-made mesh

Straitline® has been one of New Zealand's leading stock crate cover manufacturers for two decades. Through extensive research and customer feedback, we have developed a tough, cost-effective and high quality design.

SIDE CURTAIN BODY PARTS

Straitline® Tensioner

SIMPLIFY THE TENSIONING PROCESS

- ✓ Easy to Open Design
- ✓ Locks in Release Position
- ✓ No Lubrication Required
- ✓ Kinked Handle
- ✓ Tough Milled Aluminium Body & Forged Steel Handle

Straitline® Tensioner 4 Bolt

Make opening truck curtains easier. After decades using and repairing curtain tensioners, we wanted to create a new design that resolved common problems. Our Straitline® Tensioner is the result: a tough, innovative tensioner that is easy to use, safer, and zero maintenance.

Designed by the Straitline® team and launched in 2020, the Straitline® Tensioner reduces the force needed to release curtain tension. The handle locks in the open position, leaving both hands free to open your side curtain. Fits NZ standard 3 bolt or 4 bolt mounting points. Compatible with security tags and locks.

Lubricant for side curtain track and rollers.
300g can.

TP51011

Straitline® Bolt Plate Roller

Straitline® large 37mm roller with steel bolt plate. Designed to work with Straitline® track systems, this roller is perfect for a variety of applications, including custom curtains and warehouse divider curtains.

TP51008

Roof Prop Kit & Parts

- ✓ No Welding Required
- ✓ Cost Effective
- ✓ Durable Design

Straitline® Roof Prop Kit

Our roof prop is a one size fits all solution. The top half of the roof prop can be cut to length and easily joined with the lower half to become the finished product. The latch mechanism is simple to use (even with gloves on) and has an open design to prevent buildup of debris over years of use. Available with both single and double pin top mount configurations.

Single Pin, Large Roller TP55020
Single Pin, Small Roller TP55021

Double Pin, Large Roller TP55022
Double Pin, Small Roller TP55023

Gudgeon Pin Kit

Replacement Gudgeon Pin, bolts and washers for a Straitline® Roof Prop.

TP55019

Roof Prop Strap

Strap for Roof Props. Double thickness to resist wearing.

Simply bolt or rivet on (washer recommended to reduce wearing).

Domett Roof Prop Roller

Used to hold truck curtain roof props into their track on Domett curtainsider bodies.

TP51006

MaxiTrans Roof Prop Roller

Used to hold truck curtain roof props into their track on MaxiTrans curtainsider bodies. 1x Nyloc nut included.

TP51007

Roof Prop Roller Plate

Roller plate for various designs of Roof Props.
Available with 37mm large roller (standard) or 32mm small roller (Fruehauf style).

Small TP51004

Large TP51005

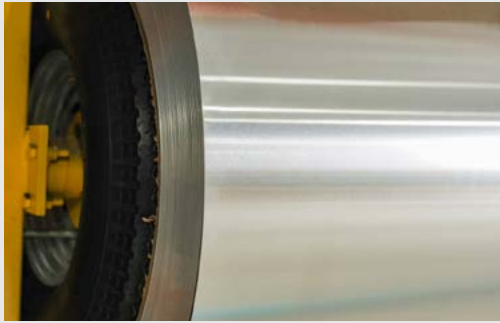

KiwiRail Roof Prop Roller

Used to hold side curtain roof props into their track on some classes of KiwiRail curtainsider wagons and containers.

TP51009

Straitline® Roof Skin / Roof Skin Coping

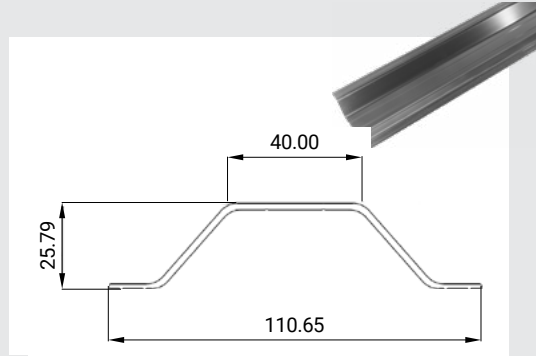

Straitline® Roof Skin

Straitline® Roof Skin is 2450 wide x 0.9mm thick, the same grade used to construct most linehaul units. One continuous length of aluminium, cut to length. Compatible with all styles of our tracks and our roof bows.

Cut & pack fee applies.

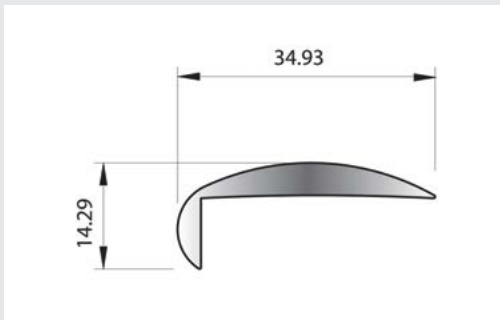

TP70001

Straitline® Roof Bow

Designed to work with Straitline® Double Track. Provides a flush mounting surface for roof skin, when riveted into position on our double track. Quick and easy to install. Made from aluminium in New Zealand. 2395mm length.

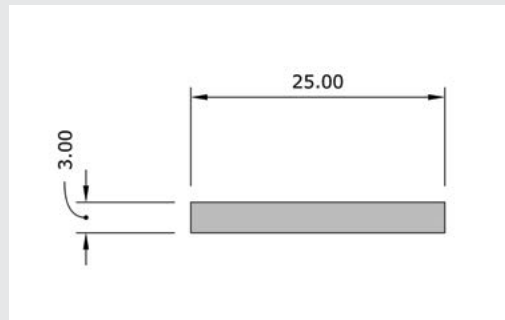

TP58013

Straitline® Double & Bottom Hung Track Roof Coping

Standard aluminium coping used to protect the edge of the roof skin and help prevent water from getting underneath. Compatible with Straitline® Double Track and Straitline® Bottom Hung Track. 5m length.

TP70002

Straitline® Top Hung Track Roof Coping

Standard aluminium coping used to protect the edge of the roof skin and help prevent water from getting underneath. Compatible with Top Hung Track. 5m length.

Curtain Straps / Rave Hooks

Curtain Strap Only

Curtain straps without rave hook.

Black **TP52018**

Red **TP52019**

Grey **TP52020**

Light Blue **TP52021**

Dark Blue **TP52022**

Flat Rave Strap

A slim-line hook that reduces the chance of the wheels catching the strap.

PLEASE NOTE: Flat Rave straps are only suitable if there is a cutout in the coaming rail. If there is no coaming rail cutout over the wheel arch, we recommend standard curtain straps. Where possible, Straitline® Canvas designs side curtains to avoid locating straps above wheel arches.

TP52005

Small Rave Hook

Small rave steel curtain hook, for use on coaming rails. Also called a 23mm hook.

TP52023

Large Rave Hook

Large rave steel curtain hook, for use on tie rails. Also called a 35mm hook.

TP52024

Curtain Pole

Curtain Pole

Anodised to avoid marking your curtains. Designed to fit Straitline® milled aluminium base plugs, but also compatible with other base plugs.

3.0m with 1 x base plug

3.3m with 1 x base plug

TP55005

TP55026

TP55006

Pole Base Plug

Milled from a single aluminium block, with a high tensile steel pin. Milled aluminium is much stronger than traditional cast aluminium base plugs. Straitline® Base Plugs are designed to fit Straitline® Curtain Poles, compatible with all NZ standard curtain poles.

TP55008

Fixed End Pole

Galvanised steel curtain pole for fixed ends. Available in 3.25m or 6.5m lengths.

3.25m TP55012

6.5m TP55013

Pole Accessories

Bolt Rope 7mm

7mm extruded plastic rope bead. Used in side curtain hems for fitting into curtain poles.

Per Metre TP55014

Pole Handle

Pre-cut curtain pole handles, 300mm long.
Made from heat set black polyester webbing.

TP55011

Pole Support Bracket

Straitline® plastic Curtain Pole Support Bracket. Designed to work with Straitline® Pole Support Spacers.

Kit with 2x Bolts and Nuts TP55027
Bracket Only TP55015

Pole Support Spacer

Straitline® plastic Curtain Pole Support Spacer. Designed to work with Straitline® Pole Support Brackets.

TP55016

Pole Handle / Parts

INCLUDES:

2x Pre-cut Webbing Pole Handles
(300mm long)

2x Curved Washers

4x Rivets (6–8)

1x Track Bolt Kit

Pole Handle & Track Bolt Kit

This kit contains two side curtain pole handles and one track bolt. Can be used for installing a new curtain, or replacing handles on an existing curtain.

TP55009

Curved Pole Washer

Stainless steel curved pole washers secure your curtain to the end poles.

Requires 2x 6–8 rivets (sold separately).
5mm hole.

TP55010

Rivets — Curved Pole Washers

Aluminium 6–8 rivets, for use with Curved Pole Washers.

5mm hole required.

CN06021

Rollers / Webbing

Straitline® Large Curtain Roller

Large Curtain Rollers (Straitline®) 37mm. Designed for Straitline® Double Track and Straitline® Single Track. Also compatible with other large roller tracks, including 7217, 9555 and TCC tracks.

TP51002

Small Curtain Roller

Small Curtain Rollers 32mm. Designed for Fruehauf and Freightor tracks.

TP51003

Weldable Webbing

Weldable curtainside webbing, for use on side curtains, roll overs and other PVC products. Can be welded using hot air or high frequency. Sold in 100m rolls. Width 50mm.

TP25001	White
TP25002	Red
TP25003	Silver

Double Curtain Roller

Heavy duty double roller, recommended for Insulated Side Curtains.

Available in Large 37mm and Small 32mm sizes.

37mm	Large	TP51010
32mm	Small	TP51012

Hanger / Fasteners

Curtain Hanger

7mm steel curtain hanger.

Compatible with both large and small curtain rollers.

TP51001

Washers — Curtain Hanger

For mounting curtain hangers to side curtains.
M6x22 stainless steel.

SC64008

M6 Nuts

M6 Nyloc Nuts, for use with stainless steel bolt plates and curtain hanger bolts.

SC64004

Bolts — Curtain Hanger

For mounting curtain hangers to curtains.
M6x12 stainless steel.

SC64001

Buckles / Plates

Overcentre Buckle

Custom design, easy open overcentre buckle by Straitline® Canvas. Fits all standard curtain straps, made from stainless steel.

Width: 50mm.

TP52001

Load Plate

Aluminium load plates are the washers that secure the buckles to your side curtains.

Requires a Straitline® Bolt Plate and 2x M6 Nyloc Nuts.

TP52003

Bolt Plate

Stainless steel Bolt Plates secure the buckles to your side curtains. Designed for Straitline® Overcentre Buckles, but compatible with NZ standard curtain buckles.

TP52002

Step Deck Plates Kit

Reinforce the step deck flap on side curtains.

EACH KIT INCLUDES:

- 1x Threaded L-Plate
- 1x Non-threaded L-Plate
- 3x Cap Screws

TP54001

Flags

Large Pocket Flags Set

Oversize load flag with large pocket, designed to fit over a side curtain strap and rave hook. High Vis Yellow PVC, comes with a Blue-Silver PE carry pouch. Set of four. 400mm x 300mm.

PLEASE NOTE: Designed for short term use and can fit over both the strap and rave hook. If you leave your flags on for long term use, we recommend Standard Pocket Flags.

TP50003

Standard Pocket Flag

Oversize load flag with pocket, designed to fit over a side curtain strap. High Vis Yellow PVC. 410mm x 280mm.

PLEASE NOTE: Designed for long term use and fitting requires you to remove the strap from the buckle. If you remove the flags often, we recommend Large Pocket Flags.

TP50001

LOAD RESTRAINT & OTHER

Corner Boards / Reaching Pole

900mm **TP49001**
400mm **TP49002**

Corner Boards

- ✓ **Made in New Zealand**
- ✓ **Made from Recycled Plastic**
- ✓ **900mm: Fits NZ standard pallets without cutting**

Straitline® Canvas Corner Boards have a larger top face, moving the centre of gravity to the top of your pallet and reducing unexpected falls. Available in 900mm and 420mm sizes, which fit standard New Zealand pallets without the need to be cut down.

They have strop retaining ridges to assist in keeping things in place during load-binding. The notches on the inside faces are designed to receive these ridges, preventing the stacked corner boards from sliding. They have simple lifting eyes, which are compatible with our Reaching Pole, making placement fast and easy.

Reaching Pole

Designed for fast, easy placement and removal of Corner Boards. Also perfect for unhooking shock cords on truck or trailer roll over covers. Extendable from 1m to 2.3m. Fits in your toolbox when collapsed. Aluminium pole, with reinforced nylon hook. Soft foam comfort grip. Curved hook slides out easily once corner board is placed.

TP43002

Load Restraint Parts

Straitline® Tarpaulin Ropes Bundle

Made from 7mm UV-stabilised PPE rope and spliced, not crimped. Spliced ropes are stronger and avoid rusty crimps.

Bundle of 10.

1.3m Black	TP42001 (10)

2.5m Black	TP42003 (10)

1.5 Tonne Strop

1.5 tonne load binder with 6m long strop, 35mm wide, hook and keeper included.

TP46001

2.5 Tonne Strop

2.5 tonne load binder with 9m long strop, 50mm wide, hook and keeper included.

Webbing colour: Green.

Standard or Pull Down Handle options

Standard Handle	TP46002
Pull Down Handle	TP46004

Load Restraint / Roll Over Cover Parts

Roll Over Cover Handle

Welded steel handle for roll over covers tarpaulins.

Designed to fit onto a 25mm x 25mm steel box section.

TP43004

Eyelet Flag

Oversize load flag with an eyelet in each corner, High Vis Yellow PVC.

400mm x 300mm.

TP50002

Solcor 8mm Shockcord

8mm solid core shockcord, made in New Zealand. Solid core shockcord doesn't fray when the sheath wears and is more resistant to UV radiation than stranded shockcord.

100m roll.

TP39001

Solcor Connector

Connectors for joining 8mm shockcord. Recommended for use with Solcor solid core shockcord.

TP46003

Roll Over Cover Parts

HM2 Hook

HM2 steel tarpaulin hook for use with shockcord. Simply rivet to your truck body.

50mm x 27mm, 13mm hook gap.

TP43001

HM1 Hook

HM1 Steel Hook. Smaller than an HM2 hook, HM1 hooks are perfect for light duty applications.

40mm x 22mm, 9mm hook gap.

TP43005

Large Stowage Hook

Large cast aluminium hook. 98mm long, 30mm wide, 20mm hook gap. Often mounted to back wall of curtain side bodies to give curtain stowage points.

TP43003

Anti-Luce Fastener

Stainless steel fastener, perfect for securing removable roll over covers to your headboard. M8 thread.

RC43002

Thermal Barrier Parts

Thermal Barrier Base Kit

Replacement plastic base protectors for Straitline® Thermal Barriers.

EACH KIT INCLUDES:

- 1 x Replacement Base
- 4 x Barrel Bolts & Nuts
- 8 x Fender Washers

TP44001

ELLIPTICAL ROLL OVER PARTS

Elliptical Roll Over Parts

Elliptical Pole

Aluminium Elliptical Tarpaulin pole.

6.6m	TP55002
8.5m	TP55029
9.9m	TP55003
11m	TP55030

Elliptical Pole End Plug

End plug for Elliptical Tarpaulin poles. Helps protect the end of the pole from damage and guides the Elliptical Wire.

TP40004

Elliptical Spline Plug

Spline plug for Elliptical Tarpaulin poles. Connects the pole to the universal joint.

TP40005

21 Spline Universal Joint

Universal Joint for use with Elliptical Tarpaulins.

TP40011

Elliptical Roll Over Parts

Adjustable Elliptical Handle with End Spline

Adjustable ground operation handle for Elliptical Tarpaulins. End spline supplied (needs to be welded on after handle is cut to desired length). Handle position can be adjusted.

TP40012

Standard Elliptical Handle with End Spline

Standard ground operation handle for Elliptical Tarpaulins. End spline supplied (needs to be welded on after handle is cut to desired length). Non-adjustable.

TP40013

Flex Bow

Plastic Flex Bows for Elliptical Tarpaulins. Keeps the tarpaulin tight and prevents water pooling on top. Sold as a full length (2500mm), simply cut to fit your truck or trailer. 35mm diameter.

TP40009

Flex Bow Bracket

Replacement mounting bracket for Elliptical Tarpaulin Flex Bows.

TP40010

Elliptical Roll Over Parts

Elliptical Wire

PVC coated 4mm stainless steel wire for Elliptical Tarpaulins, 2.85m long. Suitable for all sizes of elliptical covers.

Includes 1x stainless steel 5mm swivel and 1x stainless steel 4mm shackle.

TP40001

Solcor Core

Tough solid rubber Solcor shockcord core, 7.4mm diameter. Recommended for use with Elliptical Tarpaulins, Solcor Core lasts longer than standard Solcor inside the elliptical pole. Not designed for exposure to UV. Sold per metre or in 300m rolls.

TP39002

4mm Shackle & 5mm Swivel

4mm stainless steel mini shackle. For securing 5mm Swivel to the Elliptical Wire.

5mm stainless steel eye/eye swivel. Allows Elliptical Pole to rotate freely.

4mm Shackle

TP40002

5mm Swivel

TP40003

Elliptical Handle End Spline

Needed to connect standard or adjustable handles onto the universal joint, for truck or trailer Elliptical Tarpaulins. Size: 21 spline universal.

NOTE: our Adjustable and Standard Handles include 1x Handle End Spline per handle.

TP40008

TRANSPORT FABRIC

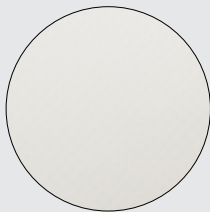

Transport 9000 PVC

Transport 9000 Standard

Transport 9000 Standard is a cost-effective option for side curtains. 900gsm of European-made excellence, Transport 9000 Standard has been used on side curtains in New Zealand for decades.

NOTE: Not all widths always available.

Transport 9000 PVC

Transport 9000 Tough

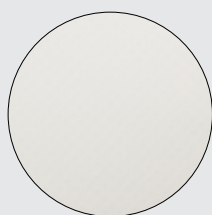

Transport 9000 Tough is Straitline®'s unique European made side curtain grade PVC. Offering a higher tear strength than Transport 9000 Standard, Tough is the ultimate side curtain fabric.

Tear strength: 20% harder to rip pole-to-pole.

Adhesion: 30% higher adhesion, reducing delamination.

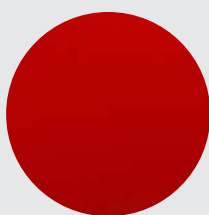

NOTE: Not all widths always available.

Transport 9000 Eco

Are you on a sustainability journey? European made Transport 9000 Eco will help you achieve your carbon reduction goals.

Why is Transport 9000 Eco so special?

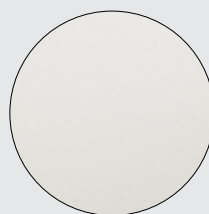

Sustainability: Contains a maximum of 80% recycled content

Innovative Manufacturing: Base cloth made from 100% recycled PET bottles.

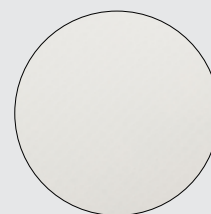

Durability: Matches the standards of our widely-used Transport 9000 Standard.

Environmental Impact: Estimated 14% or 50% reduction in production carbon emissions compared to Transport 9000 Standard (depending on which option you select).

NOTE: Not all widths always available.
